● RAMOJI STUDIO

PRODUCTION ECOSYSTEM,

Built out of a vision

Ramoji studio is conceived as a one-stop filmmaking destination with state-of-the-art infrastructure and a full spectrum of production facilities offers an inspiring environment for cinematic creations.

Founded in 1996 by the late Mr. Ramoji Rao, a renowned media and film entrepreneur, the vision was to build a facility where filmmakers from any country, working in any genre or scale, could execute their entire production within one address.

A GLOBAL BENCHMARK

- Certified

Spread across sprawling 800 + hectares, Ramoji studio is recognized by Guinness World Records as the world's largest film studio complex.

From traditional filming to digital-first pipelines, the ecosystem has adapted without losing its core strength: integration. It's where every stage of a production is taken care of with comprehensive pre-production and post-production services and professional departments supporting every scale with precision.

800+
hectares

*A Proven
Production
Destination*

400
Productions
Per Year

15+
Simultaneous
Shoots

Over 3,500 films have been produced here across languages, genres and formats from intimate narratives to large-scale cinematic universes.

With over 400 productions annually and 15 simultaneous shoots, the ecosystem is built for throughput, not just capability. From period epics and action blockbusters to commercials, streaming content and television production, the facility adapts to the demands of each format without disruption.

300+
Sets &
Locations

50
Sound
Stages

Where every vision finds its perfect stage.

Hundreds of locations, including stunning replicas of iconic landmarks, are part of the fictional universe. The adaptable, ready-to-shoot sets and flat land parcels offer limitless scope for customization, no matter the scale or storyline.

Complementing this are 50 pre-rigged sound stages of varying sizes, purpose-built to support elaborate sequences and intricate set-ups.

SELECT STAGES

(Dimensions in feet)

Area Sft.	Length	Width	Height	No. of Stages
24354	198	123	46	1
15000	150	100	46	5
14800	148	100	46	2
7350	105	70	35	5

MAYA

Set Construction Division

The creative powerhouse behind iconic sets is where cinematic worlds come to life! Powered by CNC technology, master artisans combine their craftsmanship and innovation while pulling off bespoke sets and structures of any scale.

PARADE

Prop House

The prop house boasts a vast inventory of over 40,000 props and artefacts, from rare antiques and vintage collectibles to futuristic sets.

World-class

CAMERAS & CRANES

ARRI and Sony systems, with an extensive crane and dolly lineup – crafted for fluid, high-performance productions.

GRIP & LIGHTING

Equipment

Featuring an extensive lighting inventory with grip equipment and accessories. Driven by international standards, enabling instant technical deployment.

VIRTUAL *Production* & MOTION *Capture*

State-of-the-art facilities with controlled environment and streamlined workflows enable high-efficiency production with precision, speed, and flexibility!

EIGHT *Onsite* HOTELS

From opulent condos and exclusive villas to well-appointed crew accommodation, a wide spectrum of stay options are available right on the lot.

Rejuvenating

WELLNESS

The thoughtfully curated wellness programs ensure your team stays relaxed and rejuvenated.

Central

KITCHEN

Any unit size. Any cuisine. Any hour. The industrial-scale catering serves customised menus and delivers consistency and quality – keeping the teams on schedule.

• **TRANSPARENCY**

Production clarity begins with cost clarity. Defined processes, structured workflows, and predictable pricing ensure there are no surprises – only execution.

TRUST •

With over three decades of continuous operation and thousands of productions completed, reliability here is not claimed – it is demonstrated through consistent delivery.

4Ts *of* **SMARTER FILMMAKING**

• **TIME EFFICIENCY**

A centralized mechanism removes logistical variables entirely. Multiple units can shoot simultaneously, with no outsourcing and logistics delays or piecemeal complexities that slow down schedules and affect budgets.

TAX ADVANTAGE •

India offers one of the most competitive incentive structures globally – with up to 40% cash rebate on qualifying expenditure, directly improving project viability.

ADVANTAGE FILMMAKERS

Greater control over production
Lower exposure to risk
Stronger financial outcomes

FINANCIAL EDGE+ FINAL TOUCH

Your production dollar gets the right 'return'

Film production in India offers a structural cost advantage across labour, infrastructure, and services. With government-backed incentives, the filmmaking houses and producers gain significant financial advantages.

This is not about reducing cost alone. It is about achieving more – with the same budget.

SUPPORT SERVICES

Seamless & Scalable

Ramoji Studio functions as a fully operational production city where creative teams, infrastructure, and services come together. On-site accommodation, transport, catering, and technical support ensure that every department functions within minutes of each other.

This proximity significantly improves productivity and reduces downtime.

A secure, self-contained environment guarantees privacy, protects intellectual property, and enables uninterrupted filming. Everything your production needs – within reach, at all times.

PRODUCTION

Without Compromise

At Ramoji Studio filmmaking is streamlined into a single, controlled process – where scale, efficiency, and creativity operate together.

One destination. Infinite possibilities.

CLARITY, CONTINUITY, CONTROL

No need to juggle multiple locations and vendors – and no coordination chaos.

Ramoji Studio, built as a single, unified production environment with full-on on-site services, allows filmmakers to execute high-volume and multi-unit productions with clarity and control – reducing the production timelines and the cost.

WEATHER & CONNECTIVITY

Direct international flights to London, Los Angeles, Dubai, Singapore, Seoul, Europe and South East Asia. The 45-minute drive from airport to studio is one of the shortest in the world for a facility of this scale. Moderate year-round temperatures with over 300 predictable shooting days annually. Fewer weather delays mean tighter schedules and lower contingency budgets.
